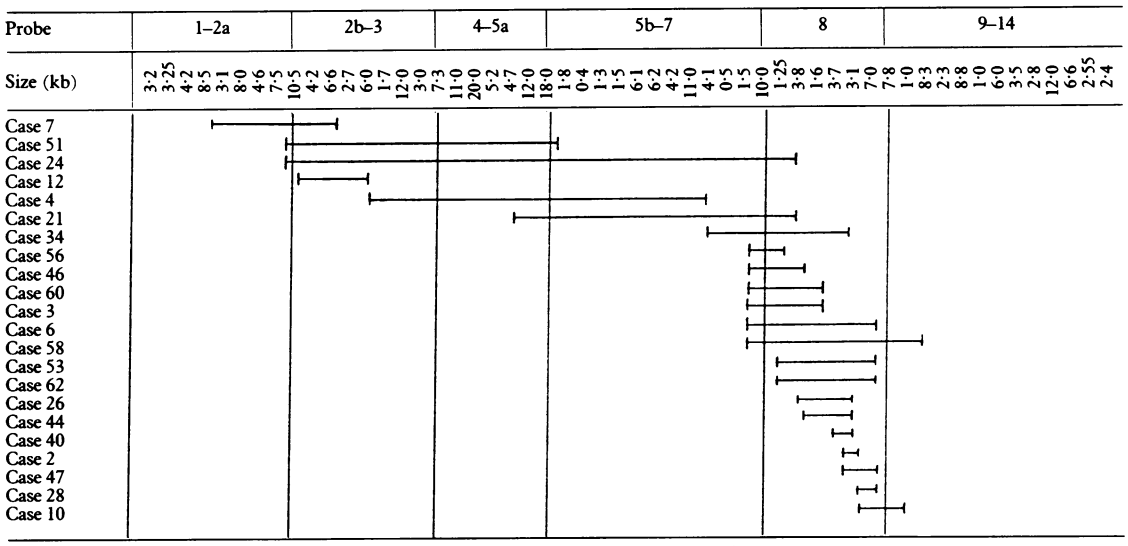
Correction

In the March 1991 issue of the Journal (*J Med Genet* 1991; **28**: 169), table 3 in the paper of Zeng *et al* on 'Analysis of RFLPs and DNA deletions in the Chinese Duchenne muscular dystrophy gene' should have appeared as below.

Table 3 Deletions in the DMD patients relative to exon containing HindIII fragments detected with cDNA probes.



The patients who were subjected to the whole series of cDNA detection are presented.
