TODAY'S TREATMENT / 2

The first volume of *Today's Treatment* has proved a best-seller. Doctors clearly welcome its down-to-earth advice on the selection of effective remedies for common disorders. The second volume covers endocrine and metabolic diseases, cardiovascular disorders, and the alimentary system. Again the chapters are based on articles first published in the *BMJ*; and the advice provides busy practitioners with a reliable working manual.

Demy Octavo

Paperback

216 pages

ISBN 0 7279 0025 0

**Price: Inland £4.00; Abroad US \$10.00
including postage**

Still available — Today's Treatment/1

This first volume contains articles published in the *BMJ* in 1974-75 on disorders of the skin and blood, and on psychiatric and neurological diseases. These simple clear accounts of assessment and management provide all the information needed for a rational choice of the best treatment for each individual patient. *Demy octavo. Paperback. 385 pages* ISBN 0 7279 0010 2

Price: Inland £4.00; Abroad US \$10.00, including postage.

Payment must be enclosed with order or a surcharge of 30p will be made for rendering invoices and statements

An important new series from Churchill Livingstone **Genetics in Medicine and Surgery**

Genetics and Cancer in Man

R. Neil Schimke

1978 120 pages 7 half-tone + 11 line illustrations hardback £7.00

Increasing evidence indicates the importance of genetic factors in the aetiology of certain cancers. This volume is a compilation and summary of all the available information on the role of inheritance in human cancers.

Genetics and Ophthalmology

C. Gregory Keith

1978 128 pages 41 half-tone + 11 line illustrations hardback £9.00

A concise but comprehensive account of genetically determined eye diseases. The information is based on recent research carried out in various centres in London, Adelaide and Melbourne.

Inherited Disorders of the Skeleton

Peter Beighton

1978 288 pages 231 half-tone + 6 line illustrations hardback £16.00

'Professor Beighton has made available to us the fruits of his extensive experience in this authoritative and clearly written book . . . a scholarly and easily readable text which will be an essential reference book for some years to come.' *British Medical Journal*.
