Contents

Original articles
The French Wilms’ tumour study: no clear evidence for cancer prone families  C Moutou, J Hochez, A Chompret, M-F Tournade, C Le Bihan, J-M Zucker, J Lemerle, C Bonaiti-Pellie 429
Charcot-Marie-Tooth disease in northern Sweden: pedigree analysis and the presence of the duplication in chromosome 17p11.2  B H Holmberg, G Holmgren, E Nelin, C Van Broeckhoven, B Westerberg 435
Presymptomatic diagnosis in families with adenomatous polyposis using highly polymorphic dinucleotide CA repeat markers flanking the APC gene  W A Eckert, C Jung, G Wolff 442
The use of constitutional heterozygosity data to ascertain the location of predisposing genes in cancer families  M D Teare, K Rohde, M F Santibañez Korel 448
Segregation analysis of Alagille syndrome  S Dhorne-Pollet, J-F Deleuze, M Hadchouel, C Bonaiti-Pellie 453
Phenotypic analysis of triphalangeal thumb and associated hand malformations  J Zguricas, P J L M Snijders, S E R Hovius, P Heutink, B A Oostra, D Lindhout 462
Genital tract function in men with Noonan syndrome  M A Elsawi, J P Pryor, G Klufo, C Barnes, M A Patton 468

Syndrome of the month
The Denys-Drash syndrome  R F Mueller 471

Brief papers
A male with a de novo translocation involving loss of 15q11q13 material and Prader-Willi syndrome  S Vickers, M Dahlitz, C Hardy, M Kilpatrick, T Webb 478
Meckel syndrome: what are the minimum diagnostic criteria?  C Wright, R Healion, C English, J Burn 482
Costello syndrome: natural history and differential diagnosis of cutis laxa  S J Davies, H E Hughes 486
Four cases of bladder extrophy in two families  E J Messelink, D C Aronson, M Knuijt, H A Heij, A Vos 490
Unusual inheritance of primary ciliary dyskinesia (Kartagener’s syndrome)  D Narayan, S N Krishnan, M Upender, T S Ravikumar, M J Mahoney, T F Dolan Jr, A S Teebi, G G Haddad 493
A further patient with Pai syndrome with autosomal dominant inheritance?  S Rudnik-Schönewirth, K Zerres 497
Null alleles of the aldolase B gene in patients with hereditary fructose intolerance  M Ali, G Tuncman, N C P Cross, M Vidailhet, I bókesoy, R Gitzelmann, T M Cox 499

Abstracts
Medical genetics: advances in brief  504

Letters to the Editor
An inherited dystrophin deletion without muscle weakness  A L Collins, K G Leyland, C R Kennedy, D Robinson, H C Spratt 505
The newly recognised skeletalgenital syndrome  T I Farag 505
