

# Journal of Medical Genetics

## AIMS AND SCOPE

The *Journal of Medical Genetics* publishes original research and reviews relevant to medical genetics and acts as a forum for discussion, debate, and information exchange through its correspondence column. The journal particularly encourages submissions on the molecular basis of human disease, human cancer genetics, the clinical manifestations of genetics disorders, applications of molecular genetics to medical practice, and the systematic evaluation of such applications. The journal attempts to handle the review process and publication as expeditiously as possible. The review process is usually completed within 6 weeks, but can take longer in some instances. Accelerated publication is available where warranted by scientific urgency and importance.

## EDITOR

Eamonn R Maher (UK)

## ASSOCIATE EDITORS

Andrew Griffith (Sweden)  
Juha Kere (Sweden)  
Constantin Polychronakos (Canada)  
Guy Van Camp (Belgium)
