

Contents

A family study of vesicoureteric reflux AIDA DE VARGAS, KATHLEEN EVANS, P. RANSLEY, A. R. ROSENBERG, D. ROTHWELL, T. SHERWOOD, D. I. WILLIAMS, T. M. BARRATT, AND C. O. CARTER *page 85*

Cellular content of amniotic fluid as predictor of central nervous system malformations M. BOBROW, C. J. EVANS, JENNY NOBLE, AND C. PATEL *page 97*

Shifting genetic patterns in anencephaly and spina bifida DWIGHT T. JANERICH AND JOYCE PIPER *page 101*

Use of overlapping normal distributions in genetic counselling N. R. DENNIS AND C. O. CARTER *page 106*

Genetic counselling of consanguineous families. Use of Smith's method to calculate recurrence risks in multifactorial inheritance in consanguineous matings CATHERINE BONAITI *page 109*

Linkage relations of a locus for congenital total nuclear cataract R. S. HUNTZINGER, L. R. WEITKAMP, AND P. D. ROCA *page 113*

Unusual inheritance of Becker type muscular dystrophy LYDIA AGUILAR, R. LISKER, AND G. GARCÍA RAMOS *page 116*

Hereditary brachydactyly with nail dysplasia G. D. SCHOTT *page 119*

Recessively inherited costovertebral segmentation defect with mesomelia and peculiar facies (Covesdem syndrome). A new genetic entity? R. S. WADIA, D. B. SHIROLE, AND M. S. DIKSHIT *page 123*

A new type of chondrodystrophic mutant in the mouse JANET M. FERGUSON, MARGARET E. WALLACE, AND D. R. JOHNSON *page 128*

Fertility in 47,XXX and 45,X patients SIR JOHN DEWHURST *page 132*

Significance of detection of extra metacentric microchromosome in amniotic cell culture RENÉE BERNSTEIN, C. HAKIM, B. HARDWICK, AND G. T. NURSE *page 136*

Partial trisomy for short and long arm of chromosome no. 5. Two cases of two possible syndromes B. ZABEL, W. BAUMANN, J. GEHLER, AND G. CONRAD *page 143*

Partial trisomy 18 in a family with a translocation (18;21) (q21;q22) M. NIAZI, D. V. COLEMAN, AND P. SALDAÑA-GARCIA *page 148*

Case reports:

De novo simultaneous reciprocal translocation and deletion K. FRIED, G. MUNDEL, AND M. ROSENBLATT *page 152*

Y autosome translocation and complex chromosome rearrangement in cri du chat syndrome J. F. MATTEI, M. G. MATTEI, J. COIGNET, AND F. GIRAUD *page 154*

Erythropoietic protoporphyria, heterozygous cystinuria, and reduced peptidase A activity in a patient with 46,XX/46,XX,18q- mosaicism E. W. NAYLOR, W. H. MURPHEY, EMMA I. DOMOSZLAI, AND R. GUTHRIE *page 157*

Familial radioulnar synostosis RICHARD A. SPRITZ *page 160*

Cleft palate and accessory metacarpal of index finger syndrome: possible familial occurrence M. GEWITZ, R. DINWIDDIE, T. YUILLE, E. HILL, AND C. O. CARTER *page 162*

Announcement *page 164*

ASTM CODEN: JMDGAE (15) 85-164 (1978)
