Editor, *British Medical Journal*

Technical Editor: Clare Henderson

Notice to Contributors

Papers, which should be in duplicate, should be sent to the Editor, *Journal of Medical Genetics*, BMA House, Tavistock Square, London WC1H 9JR. A stamped addressed postcard should be enclosed for return to author as acknowledgement of receipt of MS. Overseas authors should enclose an international reply paid coupon. Submission of a paper will be held to imply that it contains original work which has not been previously published. Permission to republish must be obtained from the Editor.

Papers should conform to one of the following categories. *Original contributions* on clinical or laboratory aspects of medical genetics in man and on related animal studies. *Case reports* with particularly instructive clinical or genetic features: to be not longer than 1000 words of text, two or at most three figures, one table (if necessary), and eight references. *Short reports* of unusual cases: to be not longer than 500 words or point form description with a clinical photograph and partial karyotype, if appropriate, and no more than two or three reference. Single case reports will usually only be considered in one of these forms. *Review articles* will generally be by invitation, but suggestions from authors wishing to prepare a review article will be welcome. *Annotations, Hypotheses, Preliminary communications, and Technical notes* will also be considered, as will *Short communications* giving information on new translocations, chromosome identification by banding techniques, and second and third findings of important haemoglobins. Contributions to the *Correspondence* and *Question and answer* columns will be welcomed.

All contributions should be accompanied by a summary giving the main results and conclusions. Typescripts should be double spaced with wide margins. One page proof will be sent to the author submitting the paper and alterations on the proof, apart from printer's errors, are not permitted. Twenty-five free reprints will be supplied and further reprints may be ordered when the proof is returned.

Figures should be kept to a minimum and should be numbered consecutively in Arabic numerals. Legends should be typed on a separate sheet. Photographs should be on glossy paper and diagrams should be drawn on stout white paper. Photographs of karyotypes do not reproduce well. Chromosomes should be cut out and stuck onto stout paper. Any lettering should be indicated on a separate transparent overlay. Pedigrees should use squares and circles. Generations should be numbered with Roman and individuals with Arabic numerals; members belonging to the same generation should be horizontally aligned.

Tables should not be included in the body of the text, but should be typed on separate pages and numbered with Arabic numerals.

References should conform precisely to the style current in this Journal. Authors are responsible for the *accuracy and completeness* of their references as these will not be checked by the Editorial Office.

Nomenclature. Authors should refer to the following publications.

(1) Chromosomes: ISCN. An international system for human cytogenetic nomenclature (1978). *Birth Defects* 1978; XIV:No 8. Also in *Cytogenet Cell Genet* 1978;21: 309-404.

(2) Dermatoglyphs: Penrose L S. Memorandum on dermatoglyphic nomenclature. *Birth Defects* 1968;4:No 3.

(3) Enzymes: WHO Scientific Group. Standardization of procedures for the study of glucose-6-phosphate dehydrogenase. *WHO Tech Rep Ser* 1967;No 366.

(4) Blood coagulation: International Committee of Haemostasis and Thrombosis (Graham J B *et al*). A genetic nomenclature for human blood coagulation. *Thromb Haemostas* 1973;30:2-11.

(5) Loci: Conventional nomenclature should be used, with lower case lettering as appropriate (for example, Race RR, Sanger R. *Blood groups in man*. 6th ed. Oxford, London: Blackwell, 1975; and Giblett ER. *Genetic markers in human blood*. Oxford, London: Blackwell, 1969).

SI units. The units in which the authors' work was measured should be cited first followed by either the SI units or the traditional units. This does not apply to Tables, but here a conversion factor should be added as a footnote.

Notice to Advertisers

Applications for advertising space and rates should be made to the Advertisement Manager, *Journal of Medical Genetics*, BMA House, Tavistock Square, London WC1H 9JR.

Notice to Subscribers

The Journal is published 6 times a year and the annual subscription rate is £27.00 in the United Kingdom and Republic of Ireland, US \$65.00 by surface mail in all countries overseas.

Payments for overseas subscriptions should be made in US dollars, ie US \$65.00, or in your national currency based on the prevailing exchange rate to the US dollar of that currency, payable to the British Medical Association. Orders can also be placed locally through any leading subscription agent or bookseller. (For the convenience of readers in the USA subscription orders, with or without payment, can be sent to: BRITISH MEDICAL JOURNAL, 1172 Commonwealth Avenue, Boston, Mass 02134, USA. All inquiries, however, must be addressed to the Publishers in London.) Inquiries regarding Air Mail rates and single copies already published should be addressed to the Publisher in London.

Announcements

Journal of Medical Genetics, 1981, **18**, 324

MULTIDISCIPLINARY SEMINAR ON SPINA BIFIDA

On 24, 25, and 26 September 1981 the Children's Memorial Hospital, Chicago, will be hosting a comprehensive seminar including topics in orthopaedics, neurosurgery, urology, and paediatrics. For information contact Dr David McLone, Children's Memorial Hospital, 2300 Children's Plaza, Chicago, Illinois 60614, USA. Tel: (312) 649-4373.

THE 3RD INTERNATIONAL CLINICAL GENETICS SEMINAR ON SKELETAL DYSPLASIAS

The Second Department of Pediatrics, University of Athens, is organising the 3rd International Clinical Genetics Seminar on Skeletal Dysplasias in Athens, Greece, 9-13 May 1982.

This conference will consist of invited lectures and free communications. The guest speakers list includes Professor Peter Beighton, Marco Fraccaro, Kaz Kozlowski, Pierre Maroteaux, John Opitz, Eberhard Passarge, David Rimoin, Jürgen Spranger, Ruth Wynne-Davies, and others.

For information contact Dr C Bartsocas, 2nd Department of Pediatrics, University of Athens, PO Box 3064, Ambelokipoi, Athens 617, Greece.

ATHENS INTERNATIONAL CONFERENCE ON DERMATOGLYPHICS

The Second Department of Pediatrics, University of Athens, is organising an International Conference on Dermatoglyphics in Athens, Greece, 20-23 September 1981.

This conference will be held immediately after the International Congress of Human Genetics and will consist of invited lectures and free communications.

For information contact Dr C Bartsocas, 2nd Department of Pediatrics, University of Athens, PO Box 3064, Ambelokipoi, Athens 617, Greece.

WORKSHOP ON IDENTIFICATION OF ANIMAL MODELS OF INBORN ERRORS OF METABOLISM

A Workshop on Identification of Animal Models of Inborn Errors of Metabolism will be held at the National Institutes of Health, Bethesda, Maryland, USA on Monday and Tuesday, 19 and 20 October 1981.

The Workshop will be open and places will be reserved for at least 100 participants. Invitations will be given on a 'first come' basis. Anyone interested in attending should contact George Migaki, DVM, The Registry of Comparative Pathology, Armed Forces Institute of Pathology, Washington DC 20306, USA.
