

## Contents

Human acetylator polymorphism: estimate of allele frequency in Libya and details of global distribution  
A K M B KARIM, M S ELFELLAH, AND D A P EVANS *page 325*

Adenosine deaminase polymorphism. Associations at clinical level suggest a role in cell functions and immune reactions  
E BOTTINI, E CARAPPELLA, L CATALDI, M NICOTRA, P LUCARELLI, N LUCARINI, R PASCONE, AND F GLORIA-BOTTINI *page 331*

Hereditary ectodermal dysplasia, olivopontocerebellar degeneration, short stature, and hypogonadism  
A R RUSHTON AND M GENEL *page 335*

Risk counselling in autosomal dominant disorders with undetermined penetrance  
R M PAULI AND A G MOTULSKY *page 340*

Dermatoglyphs in congenital heart disease  
T J DAVID *page 344*

Genetic counselling for handicapped school leavers  
M VOWLES *page 350*

Antenatal diagnosis of Niemann-Pick disease in a twin pregnancy  
P DONNAI, D DONNAI, R HARRIS, R STEPHENS, E YOUNG, AND S CAMPBELL *page 359*

Meiotic behaviour of two human reciprocal translocations  
J EGOZCUE, S MARINA, AND C TEMPLADO *page 362*

The 'fragile' X chromosome in the Martin-Bell-Renpenning syndrome and in males with other forms of familial mental retardation  
R PROOPS AND T WEBB *page 366*

5-fluoro-2'-deoxyuridine induction of the fragile site on Xq28 associated with X linked mental retardation  
N TOMMERUP, H POULSEN, AND K BRØNDUM-NIELSEN *page 374*

Complete trisomy 9 in two liveborn infants  
S MANTAGOS, J W MCREYNOLDS, M R SEASHORE, AND W R BREG *page 377*

### Case reports:

Fetal phenotype in a case of partial trisomy 21 and partial monosomy 22 detected prenatally  
A M MIGLIORINI, R COCO, T C DE NEGROTTI, J M SANCHEZ, AND G CASTIÑEYRA *page 383*

Diplospermy II indicated as the origin of a liveborn human triploid (69,XXX)  
B M PAGE, E B ROBSON, P J L COOK, R SANGER, AND J L WATT *page 386*

Normal psychomotor development in a child with mosaic trisomy and pericentric inversion of chromosome 9  
M FRYDMAN, F SHABTAI, I HALBRECHT, AND E ELIAN *page 390*

Absence of constitutive heterochromatin in a partially identified supernumerary marker chromosome  
G S PAI, G H THOMAS, AND P J BENKE *page 392*

Ectrodactyly, cleft lip and palate in two half sibs  
M B LEWIS AND H M PASHAYAN *page 394*

18p— syndrome with a single central maxillary incisor  
L M DOLAN, K WILLSON, AND W G WILSON *page 396*

Correspondence *page 399*

Book reviews *page 401*
