

that in Fabry's disease bouts of shooting pain can be caused by damage to dorsal root ganglia neurones.

We thank Dr Z Leibovitz-Ben-Gershon from the Pediatric Research Unit, Hadassah University Hospital, Jerusalem, for determination of α -galactosidase activity.

Correction

In the paper 'Graves' disease and Down's syndrome' by McCulloch *et al* which was published in *Journal of Medical Genetics* 1983;**20**:133-4, 'sputum' should read 'serum' in the last line of the Summary.
