Gene mapping and medical genetics The molecular genetics of human chromosome 6 V CUNLIFFE AND J TROWSDALE page 649

Syndrome of the month Hypohidrotic ectodermal dysplasia A CLARKE page 659

Original articles

Malignant melanoma in families of children with osteosarcoma, chondrosarcoma, and adrenal cortical carcinoma A L HARTLEY, J M BIRCH, H B MARSDEN, AND M HARRIS page 664

Variant forms of ataxia telangiectasia A M R TAYLOR, E FLUDE, B LAHER, M STACEY, E MCKAY, J WATT, S H GREEN, AND A E HARDING page 669

The inheritance of fragile sites: apparent absence of fra(2)(q13) in the parents of three unrelated probands L KESKIAHO, S KNUUTILA, H PIHKO, A NUUTILA, U KASKI, M KOIVIKKO, AND A DE LA CHAPELLE page 678

Familial t(8;15)(p23·3;q22·3): report of two cases with dup(15)(q22·3→qter) D J GOLDSTEIN, R E WARD, W C NICHOLS, AND C G PALMER page 684

Congenital anal anomalies in two families with the Opitz G syndrome J L TOLMIE, N COUTTS, AND I K DRAINER page 688

Fetal valproate syndrome: is there a recognisable phenotype? R M WINTER, D DONNAI, J BURN, AND S M TUCKER page 692

Case reports

Deletion (13)(q13q14·3) with retinoblastoma: confirmation and extension of a recognisable pattern of clinical features in retinoblastoma patients with 13q deletion T MOTEGI, K IKEDA, K WATANABE, Y YANAGAWA, AND K MINODA page 696

The clinical features of Ehlers-Danlos syndrome type VII due to a deletion of 24 amino acids from the pro α 1(I) chain of type I procollagen W G COLE, R EVANS, AND D O SILENCE page 698

Spastic paraplegia associated with brachydactyly and cone shaped epiphyses J S FITZSIMMONS AND P R GUILBERT page 702

Partial deletion 21: case report with biochemical studies and review N J CARPENTER, J S MAYES, B SAY, AND D P WILSON page 706

Deletion 15q21·1→q22·1 resulting from a paternal insertion into chromosome 5 M Y YIP, M SELIKOWITZ, N DON, A KOVACIC, S PURVIS-SMITH, AND P R L LAM-PO-TANG page 709

Editorial note and guidelines for unknown syndrome reports page 713

Dysmorphology short reports

Unknown syndrome: holoprosencephaly, congenital heart defects, and polydactyly I D YOUNG AND D J MADDERS page 714

Unknown syndrome: abnormal facies, congenital heart defects, hypothyroidism, and severe retardation I D YOUNG AND K SIMPSON page 715

Book reviews page 717
