You don't know everything

But often in a medical career it seems as if you are expected to. When confronted with a problem you've never met before the only thing to do is to ask the experts—but where are the experts who are never on holiday, never off sick, in a meeting, or simply unavailable? In How To Do It: 3, that's where. You can keep them in your pocket, and in a few minutes they can tell you, among many other things, how to:

- lecture overseas
- be a manager
- prepare a Festschrift
- commission a portrait
- set up an audit
- write a practice annual report
- organise multicentre trials
- start a DNA diagnostic service
- survive a dinner

Two companion volumes of essential know-how are also available
