

Contents

**Review article**

- Mendelian cytogenetics. Chromosome rearrangements associated with mendelian disorders  
*N Tommerup* 713

**Original articles**

- Integrated study of 100 patients with Xp21 linked muscular dystrophy using clinical, genetic, immunochemical, and histopathological data. Part 1. Trends across the clinical groups  
*L V B Nicholson, M A Johnson, K M D Bushby, D Gardner-Medwin, A Curtis, H B Ginjaar, J T den Dunnen, J L Welch, T J Butler, E Bakker, G-J B van Ommen, J B Harris* 728
- Integrated study of 100 patients with Xp21 linked muscular dystrophy using clinical, genetic, immunochemical, and histopathological data. Part 2. Correlations within individual patients  
*L V B Nicholson, M A Johnson, K M D Bushby, D Gardner-Medwin, A Curtis, H B Ginjaar, J T den Dunnen, J L Welch, T J Butler, E Bakker, G-J B van Ommen, J B Harris* 737
- Integrated study of 100 patients with Xp21 linked muscular dystrophy using clinical, genetic, immunochemical, and histopathological data. Part 3. Differential diagnosis and prognosis  
*L V B Nicholson, M A Johnson, K M D Bushby, D Gardner-Medwin, A Curtis, H B Ginjaar, J T den Dunnen, J L Welch, T J Butler, E Bakker, G-J B van Ommen, J B Harris* 745
- Epidermal mosaicism and Blaschko's lines  
*C Moss, S Larkins, M Stacey, A Blight, P A Farndon, E V Davison* 752
- Uniparental disomy explains the occurrence of the Angelman or Prader-Willi syndrome in patients with an additional small inv dup(15) chromosome  
*W P Robinson, J Wagstaff, F Bernasconi, C Baccichetti, L Artifoni, E Franzoni, L Suslak, L-Y Shih, H Aviv, A A Schinzel* 756
- Clinical and molecular studies in fragile X patients with a Prader-Willi-like phenotype  
*L B A de Vries, J-P Fryns, M G Butler, F Canziani, E Wesby-van Swaay, J O van Hemel, B A Oostra, D J J Halley, M F Niermeijer* 761
- Mutational screening of the Wilms's tumour gene, WT1, in males with genital abnormalities  
*P A Clarkson, H R Davies, D M Williams, R Chaudhary, I A Hughes, M N Patterson* 767
- Exclusion of candidate genes from a role in cleft lip with or without cleft palate: linkage and association studies  
*G M Vintiner, K K Lo, S E Holder, R M Winter, S Malcolm* 773

**Syndrome of the month**

- Nager acrofacial dysostosis  
*M T McDonald, J L Gorski* 779

**Brief papers**

- Hypomelanosis of Ito associated with mosaicism for trisomy 7 and apparent 'pseudomosaicism' at amniocentesis  
*D Jenkins, K Martin, I D Young* 783
- Prenatal diagnosis of a hypermethylated full fragile X mutation in chorionic villi of a male fetus  
*K Suzumori, M Yamauchi, N Seki, I Kondo, T-A Hori* 785
- Congenital heart malformation in Yunis-Varón syndrome  
*L C Adès, L L Morris, M Richardson, C Pearson, E A Haan* 788
- Two sibs with cleft palate, ankyloblepharon, alveolar synechia, and ectodermal defects: a new recessive syndrome?  
*A Seres-Santamaria, J L Arimany, F Muñiz* 793

**Abstracts**

- Medical genetics: advances in brief 796

**Letters to the Editor**

- Male infertility as the only presenting sign of cystic fibrosis when homozygous for the mild mutation R117H  
*T Bienvu, C Beldjord, M Adjiman, J C Kaplan* 797
- Limb/pelvis/uterus-hypoplasia/aplasia syndrome  
*A S Teebi* 797
- Molecular characterisation of  $\beta$  thalassaemia heterozygotes in Brazil  
*C S B Martins, A S Ramalho, M F Sonati, M S Gonçalves, F F Costa* 797
- Autozygosity mapping, complex consanguinity, and autosomal recessive disorders  
*R F Mueller, D T Bishop* 798
