

Journal of Medical Genetics
January 1994 Vol 31 No 1

Contents

Review article

- Mouse homologues of human hereditary disease *A G Searle, J H Edwards, J G Hall* 1

Original articles

- Sotos syndrome: a study of the diagnostic criteria and natural history *T R P Cole, H E Hughes* 20
- French myotonic dystrophy families show expansion of a CTG repeat in complete linkage disequilibrium with an intragenic 1 kb insertion *C Lavedan, H Hofmann-Radvanyi, C Boileau, C Bonaiti-Pellié, D Savoy, P Shelbourne, C Duros, J-P Rabes, I Dehaupas, S Luce, K Johnson, C Junien* 33
- Absence of myotonic dystrophy in southern African Negroids is associated with a significantly lower number of CTG trinucleotide repeats *A Goldman, M Ramsay, T Jenkins* 37
- Comparison of the relative levels of the 3243 (A→G) mtDNA mutation in heteroplasmic adult and fetal tissues *P M Matthews, J Hopkin, R M Brown, J B P Stephenson, D Hilton-Jones, G K Brown* 41
- Juvenile Kearns-Sayre syndrome initially misdiagnosed as a psychosomatic disorder *S Nørby, P Lestienne, I Nelson, I-M Nielsen, H Schmalbruch, O Sjö, M Warburg* 45
- Ascertainment and severity of Marfan syndrome in a Scottish population *J R Gray, A B Bridges, M J W Faed, T Pringle, P Baines, J Dean, M Boxer* 51
- Genetic heterogeneity of congenital hypertrophy of the retinal pigment epithelium (CHRPE) in families with familial adenomatous polyposis *S V Hodgson, D T Bishop, B Jay* 55
- The spectrum of β thalassaemia mutations in the UAE national population *R Quaife, L Al-Gazali, S Abbes, P Fitzgerald, A Fitches, D Valler, J M Old* 59
- Liver histology in the arthrogyrosis multiplex congenita, renal dysfunction, and cholestasis (ARC) syndrome: report of three new cases and review *S P Horslen, O W J Quarrell, M S Tanner* 62

Brief papers

- Two brothers with characteristic facial appearance, severe psychomotor retardation, hypospadias, contractures, and other symptoms: a new recessive syndrome? *G Wolff, E Zimmermann, B Zimmerhackl, C Harnasch, C Jung, E Back* 65
- Familial leuconychia, knuckle pads, hearing loss, and palmoplantar hyperkeratosis: an additional family with Bart-Pumphrey syndrome *J C Ramer, D B Vasily, R L Ladda* 68
- De novo deletion (2)(p11.2p13): clinical, cytogenetic, and immunological data *F J Los, J O Van Hemel, H J J Jacobs, S L S Drop, J J M van Dongen* 72
- Balanced reciprocal whole arm translocation t(3;9): analysis by fluorescence in situ hybridisation *B Blanco, F Loeza, A Carnevale* 74
- Identification by molecular diagnosis of mosaic Turner's syndrome in an obligate carrier female for fragile X syndrome *M I Tejada, E Mornet, E Tizzano, M Molina, M Baiget, A Boue* 76

Short reports

- Exclusion of two candidate loci for autosomal recessive nemaline myopathy *E Tahvanainen, A H Beggs, C Wallgren-Pettersson* 79
- Analysis of human growth hormone gene 5' sequences in isolated growth hormone deficiency patients *Y Wang, L L Yu, Q Sheng, C Meng, J Sun, S S Chen* 81

Abstracts

- Medical genetics: advances in brief 83

Letters to the Editor

- Paternal and maternal transmission of pseudohypoparathyroidism type Ia in a family with Albright hereditary osteodystrophy: no evidence of genomic imprinting *V Schuster, W Kress, K Kruse* 84
- Severe pulmonary and digestive disease in a cystic fibrosis child homozygous for G542X *M Desgeorges, M Laussel, B Rollin, J Demaille, M Claustres* 84
- Cutis laxa: a feature of Costello syndrome *S J Davies, H E Hughes* 85
- Fibrodysplasia ossificans progressiva *T E Herman* 85
- Low segregation ratios in autosomal recessive disorders *J C Oosterwijk* 85
- Del(18p) syndrome with a single central maxillary incisor *E M Peralta, A Lantigua* 86
- Prevention of Mediterranean anaemia in Latium, Italy, today *I Bianco, B Graziani, M Lerone, D Ponzini, M C Aliquò, A Amato, E Foglietta, M P Cappabianca, E Greco, P Di Biagio, N D'Arcangeli, S Rinaldi* 86
