

Contents

Original articles

- Northern epilepsy syndrome: an inherited childhood onset epilepsy with associated mental deterioration *A Hirvasniemi, H Lang, A-E Lehesjoki, J Leisti* 177
- On the origin of deletions and point mutations in Duchenne muscular dystrophy: most deletions arise in oogenesis and most point mutations result from events in spermatogenesis *T Grimm, G Meng, S Liechti-Gallati, T Bettecken, C R Müller, B Müller* 183
- Genetic study of indirect inguinal hernia *Y Gong, C Shao, Q Sun, B Chen, Y Jiang, C Guo, J Wei, Y Guo* 187
- X linked Charcot-Marie-Tooth disease (CMTX1): a study of 15 families with 12 highly informative polymorphisms *S Cochrane, J Bergoffen, N D Fairweather, E Müller, M L Mostacciolo, A P Monaco, K H Fischbeck, N E Haites* 193
- Confirmation of association between the e4 allele of apolipoprotein E and Alzheimer's disease *M Liddell, J Williams, A Bayer, F Kaiser, M Owen* 197
- Familial pericentric inversion inv(8)(p23q11) *H Boyd, J Kaste, E Hovi, U-M Ritanen-Mohammed, H Kääriäinen, A de la Chapelle, A-E Lehesjoki* 201
- Elucidation of structural abnormalities of the X chromosome using fluorescence in situ hybridisation with a Y chromosome painting probe *R T Howell, R Millener, S Thorne, J O'Loughlin, J Brassey, A McDermott* 206
- Thalassaemia in Azerbaijan *A M Kuliev, I M R Rasulov, T Dadasheva, E I Schwarz, C Rosatelli, L Saba, A Meloni, E Gemidjioglu, M Petrou, B Modell* 209
- Pyridoxine-refractory congenital sideroblastic anaemia with evidence for autosomal inheritance: exclusion of linkage to ALAS2 at Xp11.21 by polymorphism analysis *P E Jardine, P D Cotter, S A Johnson, E J Fitzsimons, L Tyfield, P W Lunt, D F Bishop* 213
- Crouzon syndrome is not linked to craniosynostosis loci at 7p and 5qter *W Reardon, L van Herwerden, C Rose, B Jones, S Malcolm, R M Winter* 219
- Stargardt's disease is not allelic to the genes for neuronal ceroid lipofuscinoses *S Gerber, S Odent, A Postel-Vinay, N Janin, J-L Dufier, A Munnich, J Frezal, J Kaplan* 222

Medical genetics around the world

- Autosomal recessive disorders among Arabs: an overview from Kuwait *A S Teebi* 224

Brief papers

- Value of chromosome painting in determining the chromosomal outcome in offspring of a 12;16 translocation carrier *C A Brandt, T Lyngbye, S Pedersen, L Bolund, U Friedrich* 234
- Trisomy 8 syndrome owing to isodicentric 8p chromosomes: regional assignment of a presumptive gene involved in corpus callosum development *M C Digilio, A Giannotti, G Floridia, F Uccellatore, R Mingarelli, C Danesino, B Dallapiccola, O Zuffardi* 238
- Apparent SMA I unlinked to 5q *J M Cobben, H Scheffer, M de Visser, J H Begeer, W M Molenaar, G van der Steege, C H C M Buys, G J van Ommen, L P Ten Kate* 242
- X linked mental retardation with non-deletional α thalassaemia (ATR-X): further delineation of the phenotype *R Ogle, M DeSouza, C Cunningham, B Kerr, D Sillence* 245
- A PCR based method to determine the Kalow allele of the cholinesterase gene: the E₁ allele frequency and its significance in the normal population *D Gaffney, R A Campbell* 248
- Spastic paraplegia, dysarthria, brachydactyly, and cone shaped epiphyses: confirmation of the Fitzsimmons syndrome *R C M Hennekam* 251
- Trisomy 12 mosaicism in a 7 year old girl with dysmorphic features and normal mental development *C J English, J A Goodship, A Jackson, M Lowry, J Wolstenholme* 253

Short reports

- Parental origin of the X chromosome in a patient with a Robertsonian translocation and Turner's syndrome *M Krajcinovic, K Ivanovic, L Mestroni, V Diklic, J Nikolis* 255
- Neurogenic bladder in Hunter's syndrome *K Koyama, Y Moda, A Sone, H Tanaka, Y Hino* 257

Abstracts

- Medical genetics: advances in brief 259

Letters to the Editor

- Epidermal mosaicism and Blaschko's lines *J Chemke* 260
- Homozygosity at the dopamine D3 receptor locus is not associated with schizophrenia *C Laurent, C Savoye, D Samolyk, R Meloni, J Mallet* 260
- Clinical and molecular studies in fragile X patients with a Prader-Willi-like phenotype *G Gillessen-Kaesbach, B Horsthemke* 260
- Genetic studies of thymic carcinoids in multiple endocrine neoplasia type 1 *B T Teh, N K Hayward, M K Walters, J J Shepherd, S Wilkinson, M Nordenskjold, C Larsson* 261
