**CORRECTION**

doi: 10.1136/jmg.2005.03468corr1

In the Original article titled, survivin-direc
ted RNA interference cocktail is a potent
suppresser of tumour growth in vivo (J Med
Genet 2006; 43:119–128) figure 3B, top panel
was incorrect. The original legend printed
for figure 3B is unchanged. The authors
apologise for this error. A full corrected
figure 3B is available on the JMG website at
