Review

- 417** *MECP2* mutations in males *L Villard*

Original articles

- 424** Mosaicism in neurofibromatosis type 2: an update of risk based on uni/bilaterality of vestibular schwannoma at presentation and sensitive mutation analysis including multiple ligation-dependent probe amplification *D G R Evans, R T Ramsden, A Shenton, C Gokhale, N L Bowers, S M Huson, G Pichert, A Wallace*
- 429** Analysis of sex chromosome abnormalities using X and Y chromosome DNA tiling path arrays *A C Karcanias, K Ichimura, M J Mitchell, C A Sargent, N A Affara*
- 437** Partial deletions are associated with an increased risk of complete deletion in *AZFc*: a new insight into the role of partial *AZFc* deletions in male infertility *F Zhang, C Lu, Z Li, P Xie, Y Xia, X Zhu, B Wu, X Cai, X Wang, J Qian, X Wang, L Jin*

Short report

- 445** Attenuated aerobic exercise capacity in *CD36* deficiency *H Yanai, I Watanabe, K Ishii, M Morimoto, H Fujiwara, S Yoshida, S-P Hui, K Matsuno, H Chiba*

Letters to JMG

- 448** Familial 4.3 Mb duplication of 21q22 sheds new light on the Down syndrome critical region *A Ronan, K Fagan, L Christie, J Conroy, N J Nowak, G Turner*
- 452** Autism, language delay and mental retardation in a patient with 7q11 duplication *C Depienne, D Heron, C Betancur, B Benyahia, O Trouillard, D Bouteiller, A Verloes, E LeGuern, M Leboyer, A Brice*
- 459** Myopathy caused by *HRAS* germline mutations: implications for disturbed myogenic differentiation in the presence of constitutive *HRas* activation *I van der Burgt, W Kupsky, S Stassou, A Nadroo, C Barroso, A Diem, C P Kratz, R Dvorsky, M R Ahmadian, M Zenker*

- 463** Further evidence of the increased risk for malignant peripheral nerve sheath tumour from a Scottish cohort of patients with neurofibromatosis type 1 *J A McCaughan, S M Holloway, R Davidson, W W K Lam*
- 467** Cancer risks in carriers of the *BRCA1/2* Ashkenazi founder mutations *L Kadouri, A Hubert, Y Rotenberg, T Hamburger, M Sagi, C Nechushtan, D Abeliovich, T Peretz*
- 472** The original Lujan syndrome family has a novel missense mutation (p.N1007S) in the *MED12* gene *C E Schwartz, P S Tarpey, H A Lubs, A Verloes, M M May, H Risheg, M J Friez, P A Futreal, S Edkins, J Teague, S Briault, C Skinner, A Bauer-Carlin, R J Simensen, S M Joseph, J R Jones, J Gecz, M R Stratton, F L Raymond, R E Stevenson*

Obituaries

- 478** Robert J Gorlin, DDS, MS (1923–2006): a geneticist for all seasons *C Eng*
- 480** Robert J Gorlin, DDS, MS (1923–2006): a geneticist for all countries *D Donnai*

Miscellaneous

- 471** Correction

Online mutation reports

- e83** Familial T-cell non-Hodgkin lymphoma caused by biallelic *MSH2* mutations *R H Scott, T Homfray, N L Huxter, S G Mitton, R Nash, M N Potter, D Lancaster, N Rahman*
- e84** De novo *HRAS* and *KRAS* mutations in two siblings with short stature and neuro-cardio-facio-cutaneous features *O Søvik, S Schubbert, G Houge, S J Steine, G Norgård, B Engelsen, P R Njølstad, K Shannon, A Malven*
- e85** Mutation of the gap junction protein alpha 8 (*GJA8*) gene causes autosomal recessive cataract *S P G Ponnam, K Ramesha, S Tejwani, B Ramamurthy, C Kannabiran*
