JOURNAL OF MEDICAL GENETICS

Editor: C. A. CLARKE

Assistant Editors: CEDRIC CARTER and D. G. HARNDEN

BROWN UNIVERSITY LIBRARY

FEB 14 1973

J Med Genet: first published as on 1 December 1972. Downloaded from <http://img.bmj.com/> on August 15, 2022 by guest. Protected by copyright.

A Rare Blood Group Antigen An^a(Ahoena). U. FURUHJELM, H. R. NEVANLINNA, JUNE GAVIN, and RUTH SANGER	385
The Dombrock System: Linkage Relations with Other Blood Group Loci. PATRICIA TIPPETT, JUNE GAVIN, and RUTH SANGER	392
Christmas Disease in One of a Pair of Monozygotic Twin Girls, Possibly the Effect of Lyonization. THOMAS RÉVÉSZ, DEZSŐ SCHULER, BÉLA GOLDSCHMIDT, and SUSAN ELŐDI	396
A New Genetic Variant of the Spinal Muscular Atrophies in Infancy. H. ZELLWEGER, E. HANHART, and H. J. SCHNEIDER	401
Pedigrees with Diabetes Insipidus, Diabetes Mellitus, and Optic Atrophy. J. H. SUNDER, T. S. DANOWSKI, F. M. KENNY, R. C. KHURANA, A. SUN, S. NOLAN, and T. STEPHAN ..	408
Pericentric Inversion of Chromosome No. 13 in a Large Family Leading to Duplication Deficiency Causing Congenital Malformations in Three Individuals. HALLA HAUKSÓTTIR, SÆVAR HALLDÓRSSON, ÓLAFUR JENSSON, MARGARETA MIKKELSEN, and ALAN McDERMOTT	413
Reciprocal Chromosome Translocations: Analysis of Two Mutants by Interactive Computer. RUSSELL W. DICKERSON, NGUYEN-HUU XUONG, and OLIVER W. JONES ..	422
The Nature and Inheritance of Kirner's Deformity. T. J. DAVID and R. L. BURWOOD ..	430
Erythrocyte Acid Phosphatase Polymorphism and Haemolysis. EGIDIO BOTTINI, PAOLA LUCARELLI, VITTORIA BASTIANON, and FULVIA GLORIA	434
Haemoglobin Q India ($\alpha 84(E13)$ Aspartic Acid \rightarrow Histidine) Associated with β-Thalassaemia Observed in Three Sindhi Families. P. K. SUKUMARAN, S. M. MERCHANT, MENNA P. DESAI, BARBARA G. WILTSHIRE, and H. LEHMANN	436
Palmar Dermatoglyphs in Tuberous Sclerosis. T. J. DAVID	443
The Effect of Absence of Thumb on Palmar Dermatoglyphics. SARAH B. HOLT	448
Familial Cancer of the Colon and Rectum. G. H. DUNSTONE and T. W. L. KNAGGS ..	451
Apparent G-Monosomy, G-Deletion, and Incomplete Down's Syndrome in a Single Family. RINA SCHMIDT, GEORGE MUNDEL, MALKA ROSENBLATT, and MARIASSA BATTIRIAM KATZNELSON	457
Trisomy-18 Syndrome Caused by Translocation or Isochromosome Formation: A Case Report with Bibliography. HJ. MÜLLER, E. M. BÜHLER, E. SIGNER, F. EGLI, and G. R. STALDER	462
Case Reports:	
Congenital Leukaemia with 46,XX,t(Bq+,Cq-) Cells. H. VAN DEN BERGHE, J. P. FRYNS, and H. VERRESEN	468
Ring F Chromosome Mosaicism (46,XY,20r/46,XY) in an Epileptic Child without Apparent Haematological Disease. MICHAEL FAED, HUGH G. MORTON, and JANET ROBERTSON	470
Bone Marrow Chromosomes in Fanconi's Anaemia. SANDRA R. WOLMAN and MICHAEL SWIFT	473
Fanconi's Anaemia: Report of a Patient with Significant Chromosomal Abnormalities in Bone Marrow Cells. MUNIB J. SHAHID, FARID P. KHOURI, and SAMIR K. BALLAS	474
Down's Syndrome with an Atypical G/G Translocation Derived from Familial Pericentric Inversion in One Chromosome of the G Group. SLAVKA MORIĆ-PETROVIĆ, ŽIVANA LAČA, and PREDRAG KALIČANIN	478
A New HGPRT-deficient Phenotype? SALLY KELLY, EDWARD J. HART, and LUCILLES DESJARDINS	482
Book Reviews	485
Index	488
